QUALIFICATIONS

PHP, CSS3, Sass, HTML5, JavaScript, jQuery, MySQL, SQL, Bootstrap, WordPress, Laravel, React JS, Axios, Redux / Redux Toolkit, MongoDB, PostgreSQL, Node.js (Express framework), GraphQL, Apollo, Typescript, Jest, Playwright, Typegoose, Typegraphql, JWT, React native, Passport, OAuth2.0, Socket.IO, nodemailer, NoSQL, Next.js, Tailwind, SignalR, [Maestro.io](https://maestro.io), Stripe, Supabase, Clerk, Shadcn and Vercel.

Tools:

XAMPP, WAMP, LAMP, AMPPS, Workbench, phpMyAdmin, SQLyog, Sublime Text, Notepad ++, VS Code, Git Extensions, Git, pgAdmin 4,, Postman, MongoDB Compass, Thunder Client, Android Studio(emulator)

CAREER EXPERIENCES

Senior React Developer

XAM / IT-SPAC Information Technology Inc

<https://www.linkedin.com/company/it-spac>

Pasig, National Capital Region

IT Services and IT Consulting.

2024-06 – 2025-8

1 year 3 months

Contract

Client from IT-SPAC: EncompaaS

Link: <https://encompaaS.cloud/>

Project: Information Management

Technology used: Typescript, React JS, Next JS, MUI, OData, Storybook.

- Create reusable base components.
- Develop new features based on Figma designs.
- Modernize legacy code and perform refactoring.
- Review teammates' pull requests.
- Fix bugs and issues.
- Create end-to-end tests using Playwright.
- Primarily handle front-end development using a microservices architecture.

Senior React Developer

XAM

<https://xam.com.au/>

Sydney, New South Wales Sydney,

Melbourne, Brisbane

shaping digital experiences with custom

AI, web, & mobile apps.

2024-04 – 2024-05

1 month

Full-time

Client from XAM: thegrowthfaculty

Link: <https://thegrowthfaculty.com/>

Project: Online Live Events

Technology used: Typescript, React JS, Next JS, Maestro.io.

- Developed new features to support live events on the existing platform.
- Enforced best-practice coding standards through team code reviews.
- Implemented API monitoring and error tracking using Sentry and New Relic.
- Designed and initialized backend API endpoints for scalable services.
- Established code quality tooling (Husky, ESLint, Prettier) to standardize development practices across the team.

Senior React Developer**XAM**

<https://xam.com.au/>

Sydney, New South Wales Sydney,

Melbourne, Brisbane

shaping digital experiences with custom

AI, web, & mobile apps.

2024-03 – 2024-04

1 month

Full-time

Client from XAM: DrTalk

Link: <https://www.drtalk.com/>

Project: HIPAA compliant communication platform and business tools for the dental office

Technology used: Typescript, React JS, Next JS, SignalR.

- Primarily focused on front-end development.
- Created SignalR queries to enable real-time communication for the DrTalk project.
- Authored best-practice guidelines for writing and reviewing code, shared across multiple teams.
- Developed reusable common components used across several projects.
- Fixed bugs related to the chat box functionality.

Front-end Developer**Adaca**

<https://www.adaca.io/>

Sydney, New South Wales

IT Services and IT Consulting

2022-06 – 2023-05

1 year

Full-time

Client from Adaca: PRISM

Link: <https://www.prism.markets/>

Project: Market Investment App

Technology used: Typescript, React JS, Recharts, Redux, Axios, React Query and SASS.

- Configured charts to display data statistics and analytics.
- Fixed bugs and improved error-handling mechanisms.
- Implemented new features based on Adobe XD mockups.
- Managed application state using Redux.
- Developed market graphs for data visualization.
- Applied best practices for Sass styling, React hooks, and state management.

Front-end Developer**Adaca**

<https://www.adaca.io/>

Sydney, New South Wales

IT Services and IT Consulting

2021-10 – 2022-06

8 months

Full-time

Client from Adaca: gsquared.

Link: <https://www.gsquared.com.au/>

Project: Task Management System

Technology used: Typescript, React JS, React Query, Axios, Material UI, React native, redux toolkit , Redux and SASS.

- Set up the user interface from scratch using TypeScript, React.js, Material UI, Axios, and React Query.
- Developed custom hooks for components to encapsulate logic and improve reusability.
- Built reusable components and utility functions following SOLID principles.
- Implemented state management and data caching strategies.
- Developed new features based on Adobe XD mockups.

Front-end Developer**Event Espresso**

<https://eventespresso.com/>

Washington

2021-10 - 2022-06

9 months

Part-time

Project: Ticketing plugin for wordpress

Technology used: Typescript, React JS, React Query, Axios, SASS, Jest, Playwright and Redux.

- Set up Jest for front-end testing.
- Created unit tests for front-end components and functions.
- Developed new features for plugins.
- Assisted in fixing bugs and resolving issues.

Full-stack Developer

Prospertogether

<http://www.prospertogether.com/>

Canada

Forex Trading System

2020-07 - 2021-07

1 year 1 month

Full-time

Technology used: Typescript, React JS, D3-shape, React Native, MongoDB, NoSQL, GraphQL, Apollo, express, node js, Redux, React Query, SASS, React native, redux toolkit, JWT, Nodemailer, Jest, Cypress, PostgreSQL, SQL, Blockly, Chart.js, SocketLabs, Plaid, Alpaca.

- Configured PostgreSQL for backend data storage and queries.
- Created Apollo Client/Server configuration for frontend and backend communication.
- Developed backend middleware and JWT configurations for authentication and user access control.
- Applied the Model-View-Controller (MVC) pattern to enforce best coding practices.
- Developed GraphQL resolvers and handled NoSQL functionality where required.
- Built PostgreSQL queries and implemented JWT-based user restrictions.
- Integrated the Plaid API for bank account connections.
- Implemented charts and graphs for crypto-related data statistics.
- Developed user management features and corresponding UI components.
- Created and displayed crypto market data lists in the frontend UI.
- Set up Redux for frontend state management.
- Implemented user mailing functionality.
- Wrote unit tests for both frontend and backend components.
- Integrated Alpaca API for crypto trading functionality.

Front-end Developer

Sellgo

<https://www.linkedin.com/company/sellgo/>

United States

Amazon seller database

2020-01 - 2020-08

8 months

Project base contract

Technology used: Typescript, React JS, Axios, SASS, csv-parse, highcharts, lodash, react-helmet, Semantic UI and Redux.

- Developed UI and functionality for multi-step forms.
- Implemented CSV upload functionality with progress bars.
- Designed and implemented Login and Register UI and functionality based on mockups.
- Created data tables for analysis, including filters and search bars, following mockup designs.
- Assisted teammates with refactoring code and fixing bugs.
- Built UI for user manuals and app instructions to guide first-time users.
- Developed video albums and category management for user video tutorials.
- Implemented responsive design using Sass.
- Integrated backend APIs using Axios for data communication.
- Managed state by creating functions for storing and dispatching state updates.

Full-stack Developer**Segworks**

<https://www.segworks.com/>

Philippines

Hospital management and healthcare services.

2019-05 - 2020-01

9 months

Full-time

Technology used: Typescript, Javascript, MySQL, MongoDB, NoSQL, Express, Node JS, React JS, html/html5, css/css3, Ajax, jQuery, Bootstrap, PHP, Yii PHP, Jasper Reports, Laravel, Vue JS, Redux,

- Developed UI and functionality for generating large reports, including billing information and diagnoses.
- Designed print formats for reports using JasperReports.
- Created clinical and billing form UIs along with their functionality.
- Implemented backend API functions and database queries to support application features.

Full-stack Developer**WISE**

Philippines

IT Services.

2017-06 - 2018-04

10 months

Full-time

Technology used: Typescript, Javascript, MySQL, NoSQL, MongoDB, React JS, Node JS, Express, html/html5, css/css3, Ajax, jQuery, Bootstrap, PHP, Laravel, Vue JS, Vagrant, Homestead, Redux and SASS

- Designed UI/UX layouts in Photoshop.
- Converted mockups to HTML and CSS.
- Wrote JavaScript to replicate design functionality.
- Configured Axios for backend API requests.
- Implemented local caching.
- Used Bootstrap and jQuery for UI and helper functions.
- Built charts and graphs for data statistics.
- Made CSS responsive for different screens.
- Added global error handling.
- Connected frontend to backend.
- Developed real estate calculation logic.

EDUCATION

2013 - 2015

Bachelor of Science in Information Technology (BSIT)

University of Mindanao

Matina, Davao City, Davao Del Sur

2009 - 2011

Computer Programming

Computersense College of Communication & Technology

R. Castillo Street, Agdao, Davao City, Davao Del Sur

2007 - 2008

PC Operation and Consumer Electronics

Ansuico Foundation Advance Technical School Inc.

Km. 13 Panacan, Davao City, Davao Del Sur

PERSONAL INFORMATION

Age:

33

Nationality:

Filipino

Date of Birth:

March 3, 1992
